\$10M renovation at Wyndham Lake Buena Vista Resort almost complete

NOVEMBER 4, 2015, 11:16 AM

A \$10 million renovation at the Wyndham Lake Buena Vista Resort will be finished in the next few weeks.

The 19-story, 232-room Walt Disney World hotel will offer a "lake house retreat concept" with a completely redone lobby space designed with a neutral color palette with accents of blue and chartreuse.

"We are delighted that the Wyndham Lake Buena Vista and the Wyndham Garden located in the Disney Springs Resort Area will now offer features and amenities that appeal to all types of travelers," said General Manager Jay Leonard.

The Wyndham Garden Lake Buena Vista property has 394 rooms.

The renovation was led by The Gettys Group, a global hospitality design firm. Updates include distressed wood paneling, white granite, and bead board paneling in the lobby space.

Those updates continue in public spaces like the Sundial Cafe and the Eclipse Lobby Lounge.

Guestrooms have also been updated. New seating, bedding and bathroom fixtures are some of the items renovated at the Wyndham Lake Buena Vista, according to a press release.
